# MULTI BUMPER

## THE MX BUMPER: MULTI-USE AND MODULAR WITH A CUSTOMISABLE DESIGN

### EASY TO HITCH

3-point, category 2 interface fitted with 4 lower pin positions.

- Depth adjustable by 11 cm.
- Height adjustable by 7 cm.

Built-in 7-pin socket, with a 3 m male-to-male spiral cable for a neat, secure connection.

### INTEGRAL STORAGE

Storage box integrated between the linkage arms, resulting in minimal overhang. Large capacity of 94 litres. Can be locked with a padlock.

Storage box ↓

↑ Side panel kit

### ROAD DIMENSIONS VISIBLE

to other road users, including from the driver's seat.

Contour lights with integrated indicators for clear signalling at night and optimal warning of a change of direction. They are made from deformable plastic, and hinged for impact protection.

4 LED position lights to accentuate and highlight the width of the machine.

Wide **retro-reflective** (up to 250 m) warning panels **effective both day and night**. TPESC Class B approved markings.

### CONVENIENCE ON THE MOVE

The central guide pole and the 2 side marker poles allow a clear appreciation of the tractor's front overhang and facilitate assessment of its width. The side poles are mounted on pivots, allowing them to flex in the event of snagging.

↑ 3-point interface

Integrated towing clevis with Ø30 mm pin and safety clip supplied as standard.

*Not intended for hitching to a trailer.*

### UNDERRUN PROTECTION SIDE PANELS

The panels are width- and tilt-adjustable without tools, to match the size of the tractor.

In the event of an underrun, the panels provide safety:

- Deformable steel structure and broad bumper surface.
- Panels are 50 cm high, giving better distribution of force in the event of an impact.
- The panels begin to deform above 1,500 kg of pressure, to absorb impacts.
- Fusible retraction (shear bolt) of panels if snagged when reversing.

### OPTION:

- 3-point interface and side panel kit in tractor chassis colours.
- Trim customisable in colour of the tractor bonnet.

*Discover all the possible options on page 7.*
